**PURPOSE:** Our primary purpose, as a non-profit, non-sectarian early childhood center is to give children their first introduction to a group experience in a warm and nurturing environment. The learning experience has many facets and we help your child develop physically, socially, emotionally as well as intellectually.

**PROGRAM:** For physical development, we utilize a full- sized gymnasium as well as a large outdoor playground. In both, we use a variety of equipment for muscle development and coordination. Our classrooms offer a large variety of Manipulative and sensory equipment, creative art, activity centers, easel work, blocks, water and sand play, music, science and dramatic play. The Nursery program stresses cooperation, beginning color, shape, letter, and number recognition. We also stress classroom etiquette, self-help and citizenship skills. The Pre-K program stresses all of the above in greater detail as well as beginning Phonics, pre-writing, pre-math and pre-science skills and language arts.
